11. Other Services

As per agreement

¹ Tariffs include only standard fees of Company's Agents (unless otherwise specified in the Tariffs), while non-standard fees charged by the Company's Agents for transactions (including bank transfers) are subject to compensation by the client. In the absence of the appropriate currency funds on the client's account, the Company has the right to convert the client's funds expressed in another currency (in the amount of commissions) for the purpose of charging the commission, except for the cases provided by RA legislation. In the above mentioned case, commission fees are charged at the exchange rate offered by commercial banks cooperating with the Company, which is most favorable for the client. The basis for calculating the market value of securities is the data obtained from authoritative sources (for example, Bloomberg). In the absence of market value, the basis is the price of the last exchange transaction made within the last 6 months preceding the calculation of the tariff. In the absence of the latter, the market value of the security is assumed to be 5 USD. Depending on the character and dimension of the Client's activity and their transactions, other Tariffs may be set for the Client by the decision of the Executive director of the Company.

² The basis for calculating the tariff is the securities available on the customer's account as of the last day of each month. Minimum Fee does not apply to accounts with zero balance of securities. The tariff does not include the fees charged by the Agent from the Company. The fees charged by the Company's Agents for the purpose of executing the Client's transaction are subject to compensation by the Client, even if the given transaction is not executed for reasons beyond the Company's control.

³ The commission specified in this subsection is also applied in the case of Russian state/treasury and corporate securities (including OTC market), as well as Russian depository receipts. This commission does not include commissions charged by Company's Agents.

In addition to the commissions mentioned above, the following fees are also charged from the client:

- UK Stamp Duty: 0.5% of transaction value (for purchase transactions), details [here](#),
- PTM (Panel on Takeovers and Mergers) fee in the UK: £1 per contract in cases where the transaction value exceeds £10,000, details [here](#),
- France: 0.3% on the purchase of certain securities, details [here](#).
